

RISK MANAGEMENT SYSTEM AND SUPPORT

Managing risk is now smarter, easier, and more efficient

Our risk management website provides access to all of your claims activity in an easy-to-use system. It's safe, secure, and accurate, simplifying your work while helping you save time and money. Your benefits include:

CLAIMS ACCESS

Track, search, sort, and manage all your claims in one spot.

Your time is valuable. With our risk management website, you have both a comprehensive overview as well as complete claim detail information available. You can search your claims by claimant, claim type, date, and other variables. You can also see financial, compensation, and legal details. With predefined claim views and the option to create custom views, you get the information you need the way you want it.

REPORT CAPABILITY

Review more than 70 interactive charts and graphs to discover trends and analyze data.

View claims data graphically with useful dashboards—a great way to identify trends in your business. These interactive charts allow you to examine the details and view multiple variables at once.

Our risk management website makes reporting easy, instant, and intuitive. Run reports based on standard templates or customize your own by modifying the columns, sort order, grouping, or other criteria. Use a simple series of drop-down menus and clearly labeled functions to create even complex reports easily.

ALERT SYSTEM

Receive alerts anytime, anywhere via text, email, and the web.

Our risk management website delivers instant, daily, or weekly alerts on important events. View these customized system notifications on the Alerts tab, the home page, or via text message or email. You can configure alerts to deliver updates on claim status as well as financial and legal activities.

SAFETY MATERIALS

Keep safety in mind with industry articles, tips, and insights.

Managing risk isn't just about data. It's also about knowledge. Our risk management website features an entire section dedicated to helping you prevent losses. This wealth of information allows you to stay up to date on the latest strategies to help maintain a healthy workforce, reduce accidents, and build a safety culture.

PERSONAL WATCH LIST

Stay updated on claims that matter most to you.

Not all claims are created equal. With the Watch List, you can easily and instantly keep track of your most important claims.
