

Solartis

Risk and Policy Manager

We were built from the ground up in 2004 by the founding team that runs Solartis today. We are a US company with operations in southern India. We are profitable, have no debt and employ over 300 people. The 3 founders of Solartis are insurance, business and technology executives committed to achieving the promise of our on-demand automation and BPO services model.

Solartis Risk and Policy Manager is cloud-based software used to track, manage and report on all insurance policies, risks, coverages, premiums, and processing activities as well as its participants (i.e. members, subsidiaries, profit centers, business units) risks, coverages, premium contributions and insurance activities.

EXCELLENT

OVERALL VENDOR RATING

Strengths

- Innovative way to combine policy-related information from a variety of sources for analysis
- Sound technology

Weaknesses

- No claims management or administration capabilities although software does collect claims data
